A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starving man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, "heart-burn" or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyceric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under oath. Its ingredients are endorsed and extolled by the most eminent medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

A Reliable Remedy for CATARRH

Ely's Cream Balm

is quickly absorbed. Gives Relief at Once.

It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. Full size 50 cts., at Druggists or by mail. In liquid form, 75 cents. Ely Brothers, 56 Warren Street, New York.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

SOUTHERN RAILWAY EARNINGS

The income account of the Southern Railway Company for the fiscal year ended June 30, 1907, was issued yesterday, and with it the remarks of President Finley, which will be a part of the full pamphlet report. The statement shows an increase of a little over $3,000,000 in gross earnings for the year and a decrease of nearly $2,000,000 in net, resulting from the heavy increase in operating expenses. President Finley says of the causes for the increase operating expenses:

"The conditions of operation during the last year have been extraordinary. The investment of new capital in the construction of double track, additional yards and new lines has increased the fixed charge upon the revenues of the company without securing for the moment an immediate corresponding benefit, a relief which can come only with the completion of the new work. It is more apparent every day that this benefit will more than offset such increased fixed charge when the new facilities are put in operation, as they will be largely during the current year.

"Great as are the burdens upon the operation of a railroad today by reason of the increased cost of materials of all classes and the unabating expectations of labor, on the one hand, and legislative reduction of revenue and increased taxes, on the other hand, the crying need of the railroads of the South is more track, more equipment, more terminal facilities. With the strategic position and established relations which the Southern Railway Company now has, there would be no stint in the amount of traffic it could obtain and profitably handle if it had the facilities necessary to afford to those who offer traffic the service they demand.

"During the last winter there were serious congestions of freights on the lines of this company, which were due, almost without exception, to the failure of the plant to respond to demands which were made upon it beyond its capacity.

"Apart from congestion of traffic, the expenses of operation, of which mention has been made, have been extraordinary."

President Finley also refers at some length to the growth of diversified industry in the South, particularly along the lines of the Southern Railway system. The South, he points out, "now melts more than one-half the pig iron and converts into cloth and garments more than one-fifth the cotton which it produces. Its phosphate beds have formed the basis for the manufacture of commercial fertilizer on such a scale as to make the South independent of outside sources of supply and to add greatly to her agricultural productiveness. The manufacture of furniture has grown to such proportions as are not exceeded in any other like section of the country yet, without decrease in the volume of lumber sent from the South to other markets of this country and abroad. The production of coal has with difficulty kept pace with the development of industry, not because of inadequate supply, but because of restricted transportation facilities."

Concerning the relations of the Southern Railway Company with the public Mr. Finley says:

"In all the dealings of the company with the public it is the purpose of the management to cultivate a spirit of co-operation, to deal justly with all the patrons of the company on the basis of sound business and economic principles, and to this end particularly special efforts have been made to bring about courteous and considerate treatment by all employes of every person transacting business with the company. These endeavors have not been fruitless."

That the South is not hostile to railroads is one of the declarations appearing in President W. W. Finley's statement. In fact, President Finley says there is a growing feeling among shippers and travelers in that part of the country in favor of a reasonable treatment of railroad enterprise. The statement then cites as an indication of the rapid industrial expansion of the South that last year no fewer than 860 new plants of various sorts were installed along the Southern Railway's lines, and that the capacity of many older plants was enlarged.

His Dear Old Mother.

"My dear old mother, who is now eighty three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellent appetite, feels strong and sleeps well." That's the way Electric Bitters affect the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by all druggists. 50c.

A weak Stomach, causing dispepsia, a weak Heart with palpitation of intermittent pulse, always means weak Stomach nerves or weak Heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop, of Racine, Wis., will mail samples free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by E S. Leadbeater & Sons.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Guaranteed under the food and drugs act June 30th, 1906. Serial number 1098.

Tell Them You Know!

BOY KILLS HIS MOTHER.

George Smiley, aged 17 years, shot and killed his mother, Mrs. Lizzie Scholfer, aged 42 years, in their home in Kansas City, Mo., yesterday. In a statement to the police Smiley said he shot his mother in defending her against a burglar. He is being held pending investigation.

Mrs. Scholfer had been separated from her second husband, and the boy and his mother lived alone in the southeastern part of the city. After the shooting Smiley gave the alarm to the neighbors, and although search was made for the burglar promptly no trace of him could be found. The boy, taken to the station and questioned, told a dramatic story of how he had killed his mother in trying to defend her. He said he had been awakened by screams of his mother, who told him there was a burglar in the house. The woman had grappled with the man and urged Smiley to get his shotgun. A moment later the burglar freed himself and was making an attempt to escape when Mrs. Scholfer ordered Smiley to shoot. As Smiley raised his gun, a single-barreled affair, and fired, the burglar, he says, pushed the woman in front of him. She received the full effect of the discharge, dying within a few moments. The burglar, he added, escaped, leaving no clue.

ROBBED BY YOUNG GIRLS.

A wealthy American, during the lunch hour Monday of the dressmaking establishments on the Rue de la Paix, in Paris, got into conversation with two pretty young women, whom he thought were dressmakers. He promised to send some picture postal cards from Milan and handed them his pocket book, with a card placed on it for them to write their addresses. Suddenly the bell recalling the girls to work was heard and the young women rushed indoors, taking the pocketbook with them. It contained $1,200. The police were notified and found that the girls were not known in any dressmaker's establishment in the neighborhood.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, OCT. 16, 1907.

RIGHT REV. DR. A. F. WINNINGTON INGRAM, Lord Bishop of London, like the Master of old and the first disciples, is ready to sound the Gospel call anywhere in season, out of season, whether in a cathedral or in the streets. Yesterday he delivered a discourse in front of the old custom house in Wall street, New York, one of the most crowded places in the world. His audience was composed of busy financiers and merchants of the great metropolis, men who hurry to and fro anxious to knife each other in the mad rush for wealth. The Lord Bishop's address was pertinent, but whether his timely admonitions fell on receptive ears remains to be seen. Among other things the speaker said:

What would Jesus do if He came into Wall street. Work, work, work. He would do what you are not doing. He would invade your offices and the stock exchange and spread the Gospel. You who believe in the things I do, what are you doing to spread the Gospel in your offices, in your homes, in the stock exchange, in Wall street? Answer, these questions, and do not rest until your consciences are satisfied. In London we occasionally have a fog, although we have as good weather there as in New York. In one of these famous London fogs I saw a little boy once holding on to a cord. 'What have you got at the end of that string, my lad?' I asked him. 'A kite,' came the response. 'How dow you know you have a kite there; you can't see it?' 'Ah, but I can feel it pull,' replied the little fellow. How do you account for the unerring movements of 200,000 blazing suns that you see as stars? How did all these wonders come to be? I tell you there is the mark of a mind upon all these things. Beyond the veil before our eyes there is intelligent mind that governs the titanic forces of nature. You all know the difference between right and wrong, or should know. Who gave you this conception of right or wrong? It was God. But there are honest men who hold back and refuse to believe because of the miracles. Can any of you explain to me how your Sunday dinner became part of yourself? Can any of you give me an intelligent answer as to what sleep is? Can you tell me the difference between life and death? No. We are living in ages of miracles, in a world of mysteries. There is a force that appeals to your intelligence and conscience. It is pulling you toward a goal. You cannot see it, but you feel the pull. What does it pull toward? Toward a life of prayer, toward a daily communion with your better self—God.

THE THOUGHTFULNESS of a so-called "soulless" corporation was responsible for the homeless of Fontanet, Ind., being given food and shelter during the most terrible night any equal number of sufferers endured in the middle west in recent years, the result of the explosions in the powder mill yesterday by which forty people were killed, many injured and hundreds rendered homeless. It was Superintendent Houghton, of the Big Four Railroad, who thought of the approaching night. He telephoned Gov. Hanly asking that the State provide its emergency tents and rations. The governor acted immediately on the suggestion and the Big Four Railroad furnished special cars for the purpose. Their cars were run on a siding and used for shelter by those who could not be provided with tents. The heavy rain which fell all day made the suffering more intense. A great majority have but little that is good to say of corporations. Many charges against such are by no means baseless, but if charity covers a multitude of sins, the act referred to above will not be forgotten, especially when we are told that the giver of a cup of cold water is to receive his reward in the great day of assizes.

SECRETARY OF WAR TAFT arrived at Manila yesterday, and was welcomed with a splendid water parade, after which he was escorted to the palace. Hardly had he taken his quarters there when he gave orders that no liquors shall be served at the functions in his honor to be held at the palace. Even over there he has heard of President Roosevelt's champagne and Vice President Fairbanks's cocktail experiences, and he intends to steer clear of trouble himself.

ACCORDING to the San Francisco district attorney's office, Eugene Schmidt formerly mayor of that city, but now a convict for accepting a bribe, has lost the right to appeal to a higher court through a blunder of his attorney, and must go to the penitentiary, where he should have been long ago.

THE Filipinos are being rapidly Americanized, as a dispatch from Manila says the Philippine Commission has authorized the creation of a public service commission with power to adjust rates on all utilities.

Alfred I. DuPont de Nemours, vice president of the DuPont Powder Company of Delaware, and Mrs. Alicia Maddox, his second cousin, were married at the Hotel Plaza in New York, yesterday. Only the members of the immediate families were present. Both Mr. and Mrs. DuPont are divorcees.

The Interstate Commerce Commission today continued the hearing of the shippers' and commercial interests on the uniform bill of lading. The railroads will be heard last, after which the commission will take the problem under advisement. Direct intimation that the authority of the commission will not be recognized in case an unsatisfactory conclusion is reach has already been made. The banking interests, which loan $2,500,000,000 annually on bills of lading, have announced that they would appeal to Congress to safeguard their interests, believing the commission's authority inadequate. Henry C. Cunningham, counsel for the Southern and other systems, has declared his doubt of the authority of the commission to establish a uniform bill of lading at all.

Henry W. Furniss, American minister to Haiti, reports to the State Department that five political prisoners were shot there today. There are a number of other prisoners who participated in the recent revolutionary attempt and who are now awaiting trial. There are no foreigners involved, so far as is known here.

Discovery has been made by Mrs. Edward E. Qualtrough, wife of Commander Qualtrough, U. S. N., supervisor of New York Harbor, that their home in this city has been stripped during the last two months of bronze statuary, pedestals, vases and bric-a-brac, worth $10,000. The house was closed this summer, except for these occasional visit of thieves, who entered by the kitchen windows. The house was formerly the French Embassy.

The Continental Tobacco Company has abandoned its fight in the U. S. Supreme Court against the constitutionality of the Massachusetts statute, making it a criminal offense for a person to make, as condition of a sale, a provision that the purchaser shall not sell or deal in the goods of any rival concern. Upon request of attorneys, the court dismissed the case, which arose out of a transaction at Brockton, Mass.

The fact that Senator La Follette, of Wisconsin, has taken a big attractive house on Washington Heights for the winter has led gossipers to wonder whether he is to follow the Fairbank's entertainment plan of campaign for delegates to the next republican presidential convention. The first winter the Senator was in the senate he and Mrs. La Follette had a small apartment. Last winter Mrs. La Follette remained in Madison and the Senator hibernated at Chevy Chase, just outside the city. The leasing of a big house for the coming season is, therefore, regarded as somewhat significant.

The most violent earthquake record ever made on the seismograph at the Weather Bureau started at 9:14 this morning. The vibrations of the needle were even greater than those caused by the San Francisco earthquake. Weather Bureau officials are momentarily expecting news that somewhere in the world an unusually severe disturbance has occurred. The Coast and Geodic Survey's magnatic observatory, at Cheltenham, Md., also recorded the earthquake.

The fall convocation of George Washington University was held this morning in Belasco Theatre, when an address was delivered by Chancellor F. B. Andrews, of the University of Nebraska, on "The United States as a Pacific Ocean Power."

Catherine Dean, 29 years old, of 1108 Four-and-a-half street, drank a dose of carbolic acid at 2 o'clock this morning. She was removed to the Emergency Hospital, where she died later.

AN IMPORTANT DECISION.

Under a recent decision of the federal courts in Virginia, the Weems Steamboat Company finds that it has not absolute control over the thirteen wharves on the Rappahannock river that it has owned or leased for half a century, but must share them with its competitors.

The line has maintained boats between Baltimore and Fredericksburg for fifty years, and stops are made at the thirteen piers on the Rappahannock river. A rival concern recently undertook to land at the piers, the Weems steamers in some cases being compelled to lay off in stream until its competitor chose to leave.

An injunction to restrain the other steamers from using the piers was refused by the Circuit Court, on the ground that, as the Weems Company was a common carrier, the wharves were public property, and to exclude other vessels from the privilege of landing would be to create a monopoly.

The judgment was affirmed by the Federal Court of Appeals, and the Weems Company now seeks its review on writ of certiorari by the Supreme Court.

This decision will affect companies which have heretofore enjoyed monopolies of wharves on the Potomac and other rivers.

HARRIMAN HANDICAPPED.

E. H. Harriman, by an order of court in Chicago yesterday, was deprived of the voting power of 286,731 shares of Illinois Central stock in the annual meeting of that railroad company, which opens at noon today. The order of the court was practically identical with the modification asked by the attorneys of Mr. Harriman. Both sides claim a victory, Mr. Fish because the enjoined shares will not be effective at the election, and Mr. Harriman because his modification was made.

The shares of stock ruled out are those held by the Union Pacific Railway Company, the Railroad Securities Company of New Jersey, and the Mutual Life Insurance Company of New York, against which a temporary injunction was on Monday issued by Judge Ball, in the Superior Court.

Mr. Fish on Monday asked that the voting of these shares be enjoined. The court yesterday, after extensive argument by the attorneys of both sides, modified the injunction by permitting the shares to be voted under the condition that if any one of these shares should have a decisive effect on any vote taken, the entire vote is then to be null and void.

EXPLOSION IN POWDER MILL.

As was stated in the Gazette, Fontanet, Ind., was practically destroyed yesterday by the explosion of the plant at the DuPont Powder Company. The dead number from 25 to 50. More than 600 persons were injured and every building in the town was wholly or partially leveled to the ground.

The concussion of the explosion was felt 200 miles distant. Buildings in cities 25 and 35 miles away were damaged. The 40,000 kegs that exploded containing blasting powder. Of the 1,000 inhabitants of Fontanet, 600 were killed or injured, while the remaining 400 were blood stained. In addition to the destruction of 500 homes, all business houses and churches were wrecked. A school building two miles away collapsed on 200 children.

Where stood yesterday morning a thriving and busy town of 1,000 people, last night there was ruin and scattered wreckage. Five hundred inhabitants, all more or less wounded, remain to gather their scattered household goods and sleep under tents and on cots, guarded by soldiers of the State.

Without warning the powder mills, seven in number, blew up at 9:15 o'clock yesterday morning. They employed 200 men, and of these 75 were at work when the first explosion occurred in the press mill. In quick succession the glazing mill and the two coining mills and the powder magazine blew up, followed by the cap mill. In the magazine, situated several hundred yards from the mills, were stored 40,000 kegs of powder. When it blew up the concussion was felt nearly 200 miles away.

Farmhouses two miles away and schoolhouses equally distant were torn to pieces and their occupants injured. A passenger train on the Big Four Railroad four miles away had every coach window broken and several passengers were injured by flying glass.

Forty-four thousand dollars have been subscribed for the relief of the destitute, and society women have volunteered to act as nurses for the injured. Some persons are furnishing lumber for the repair of houses and others are sending workmen to help make tenantable shattered houses.

Wilmington, Del., Oct. 16.—The Dupont Powder company have telegraphed the Governor of Indiana to draw on them to any extent for the relief of the sufferers at Fonanet.

EPISCOPAL CONVENTION.

Much interest has been aroused in the General Convention of the Episcopal Church now in session in Richmond, by a vigorous attack against the proposition of Bishop Brown, of Arkansas, in the last number of the Churchman, the organ of the Episcopalians, published in New York.

In this article Bishop Brown is represented as the enemy of the negro race. He delivered a speech on the subject in the House of Bishops yesterday, and his remarks were intended, in part, as a reply to the attack made on him by the Churchman. Bishop Brown said, in part:

"I have a letter in my possession from a prominent priest in the church, who claims that the amalgamation of the Anglo-American and Afro-American races is the ultimate solution of our difficulties, and that they will be solved in this way within 50 years. I pass this nauseating theory by with the observation that this is the solution upon which many of the most representative negroes have set their hearts, and that, if this church wants to further them in the realization of that desire, the erection of an Afro-American episcopate of either the missionary or suffragan type with any degree of representation in the general convention would be action along the right line; otherwise it would be fundamentally wrong.

"If we should consecrate only one or two African bishops and divide the whole South into as many jurisdictions the colored episcopate, with its delegations, would, perhaps, not be embarrassing and hurtful to an unbearable degree. But what good would be done by two or three colored bishops with vast jurisdictions? If an Afro-American episcopate is to justify the hope that its friends, both black and white, entertain, there must ultimately be nearly as many colored bishops in the 'black belts' of the South as there are white bishops now. If we think it worth while and advisable to grant the appeal of all we should confidently expect that colored bishops will increase on an average of one per year during the next 20 years.

"Possibly the House of Bishops, which will be much larger by the end of that period than it is now, could endure its thorn of 20 colored bishops, but have you any idea that the House of Clerical and Lay Deputies could endure their 'thorns' of as many negro delegations? Every southerner knows that it would be intolerable, and that the end would be the breaking up of the general convention."

He said that the negro delegation would also appear at the triennial meetings of the Woman's Auxiliary.

"Would not that be interesting to the southern ladies? What the Afro-Americans need is several bishops. They know it; so do we. But since social conditions will not permit any such increase in our House of Bishops, nor any large representation in our House of Deputies, let us acknowledge this in an open and straightforward manner, and give them the autonomous church, with their own general convention and all that goes with it."

The House of Deputies yesterday also entered into the discussion of the question relating to the amendments to the constitution upon racial lines and the announcement that this would be the order explained the presence of a crowd which overflowed the galleries and the seating capacity of the house. The convention plunged boldly into the discussion of the question and the best means of providing for the spiritual welfare of the colored race under the supervision of the church.

Three plans were suggested—that providing for suffragan bishops, that providing for negro bishops with jurisdictions of their own and the Arkansas plan, which would give to the black man an entirely separate church.

The committee on bishops for the negro race, with missionary districts, as materialized by the diocese of Pennsylvania and the conference of colored people, reported through its chairman, Rev. Dr. Huntington, of New York, that the plan is not feasible, but recommended the making of legal suffragan bishops, who may be elected when the regular bishop so desires. These shall have a seat, but no right to vote in the House of Bishops, and shall be subject to the orders of the bishops in whose dioceses they serve. He may be appointed bishop of a missionary jurisdiction, but there is not necessarily a succession in his office.

Rev. Meade Clarke, of Virginia, and Bishop Cheshire, of North Carolina, presented a minority report favoring negro bishops, with jurisdiction of their own.

The house sat as a committee of the whole during the afteenoon session, Dr. McKim yielding the chair to Dr. Packard, of Maryland. After the rejection of the Arkansas resolution the question of further considering the negro question was referred back to the committee, and continuing, the debate concerned the minority report, providing for the election of bishops, not suffragan, to preside over the races, with power to vote and sit in the House of Deputies to the General Convention.

Northern and Southern delegates clashed, and often succeeding deputies would severely criticise the statements of those who had preceeded them.

Rev. Dr. Grammer, of Pennsylvania, heartily indorsed the report as submitted, and in response to his remarks Rev. Dr. Norton, of Arkansas, scored him severely, claiming that Dr. Grammer stood for radical measures as a solution of the negro question in the church, and that the proposition, if accepted as presented, would cause disruption.

The house of deputies, sitting as a committee of the whole, decided at a late hour last night to recommend to the house of deputies that the measure known as the suffragan bishop resolution be adopted. The house discussed the Arkansas proposal, which allowed the negroes to have a separate bishop; the Pennsylvania and North Carolina measures, which permitted the various dioceses to form their negro congregations into missionary districts, over which a missionary bishop would be placed, and the plan for suffragan bishops for work among the negroes.

The vote was taken first on the racial district proposal, and resulted in its overwhelming defeat by a vote of 827 to 53. A vote was then taken on the suffragan bishops measure, which was introduced by the Rev. Dr. Parks, of New York, and the measure was carried by a vote of 267 to 109. The suffragan bishop's measure will therefore be recommended today, and there seems to be little doubt but that it will pass both houses of the general convention.

Bishop Lucien Lee Kinsolving was reappointed bishop of Brazil.

Panic in a Tunnel.

New York, Oct. 16.—One hundred and fifty men working in the new subway tunnel from the Battery to Brooklyn were thrown into a panic in which men were crushed and trampled on, several receiving serious injuries, by the explosion early today of a compressed air pipe.

A report like the roar of a 13-inch gun announced the bursting of the air-pipe. Immediately there was a wild rush by the workmen, some of who were far under the river, for the elevator shaft at the Brooklyn entrance. An unusually large force had been kept at work at late hour owing to reports that the tunnel was sinking. All imagined a break had occurred and that the river was rushing into the tube.

Men fought and struggled to get into the elevator, which could not handle the entire crowd, and in this struggle many were hurt. As the car started up on its first trip, Adolf Raffeleo made a leap and caught hold of an iron rod on on the bottom of the lift. He was carried upward, but swung against a beam which broke his hold. He dropped to the bottom of the shaft, sustaining injuries which will prove fatal.

Three trips were made by the elevator before all of the men could be taken out no damage was done to the tunnel.

Secretary Taft Addresses Filipinos.

Manila, Oct. 16.—With impressive ceremonies, and a significant speech by Secretary of War Taft, the first Philipine Assembly was opened today.

"President Roosevelt has sent me to convey to all Filipinos congratulations upon this, another step in the enlargement of self government," said the secretary. As this policy of extending control continues, it must logically result in ending the sovereignty of the United States unless both people agree to retain the bond owing to mutually beneficial trade relations. None can anticipate the period or process of political preparations. During my last visit I was of the opinion that it would take considerably longer than a generation. My views remain unchanged. We are engaged in a great experiment that no other nation has attempted. Hence it would be unwise to fix a period when the experiment must succeed."

The Secretary referred to the failure of congress to admit Philipine sugar and tobacco to the United States free of duty. He anticipated that the next congress would secure a compromise, limiting the importation, thus allaying the fears of the opponents of the plan."

The Kaiser a Witness.

Berlin, Oct. 16.—Kaiser Wilhelm has been summoned to the witness chair and in a most unsavory case, as one of a long list of royal and aristocratic personages on whose testimony Editor Maximillian Harden, of a Berlin weekly newspaper, relies to win the libel suit brought against him by General Count Cuno Moltke.

The royalties cannot, indeed, be compelled, actually to appear in the court room, the law permitting them to testify privately. The Kaiser is said to be furious and all Berlin is open-mouthed with astonishment. Among others summoned: Chancellor von Buelow, of Germany; Prince Philip, of Eulenberg; Seven counts holding high positions in the German court. Frau Von Elbe, Moltke's divorced wife, and Baron Kruse. Harden's articles accused Moltke of disreputable political intrigues and immoral practices. He says he proposes now to prove the truth of his charges.

Home Rule for Ireland.

London, Oct. 14.—A new plan of Irish home rule, based on medification of America's system of State government, is under consideration, according to authorities in close touch with ministerial circles. Though the scheme is still in a formative stage and may not develop, it is considered favorably. The idea, in brief, is to make Ireland a State of the United Kingdom. Sir Anthony Macdonnell, under secretary for Ireland, is understood to have asked Ambassador Bryce to study the matter. Sir Anthony's report will probably decide the British government to drop the plan or push it to a conclusion.

Trouble Brewing for Count.

Newport, R. I., Oct. 16—There is trouble today at "The Breakers," the villa of Mrs. Cornelius Vanderbilt, where her prospective son-in-law, Count Ladislaus Szechenyi, found a retreat after having been left alone at the home of Alfred G. Vanderbilt, and the blase smart set is thrilled with excitement. There remains no longer any doubt in the minds of gossips that the men of the Vanderbilt family are displeased with the Count, and it is said today that Mrs. Vanderbilt is rapidly inclining to their view.

Meeting of Railwaymen.

New York, Oct. 16.—A meeting of railroad men fraught with great possibilities for the laborers in that great industry is in secret session at the Broadway Central Hotel here. The possible amalgamation of two of the large railway orders and a demand for increased wages are two of the possible outcomes of this meeting. The 200 and more delegates assembled represent the Order of Railway Conductors and Brotherhood of Railway Trainmen. They represent every State and every railway system in the country.

Cause of Explosion.

Terre Haute, Ind., Oct. 16.—The cause of the explosion at Fontenat was a hot box, friction on a shafting in the glazing mill, sending sparks into loose powder. Wm. Sherrow, a workman in the glazing mill where the first explosion occurred, recovered consciousness in the hospital today and said: "The explosion was caused by loose boxing on the shaft. The day before we had to throw water on it, when the friction made it hot. This time it got too hot and sent off the sparks that caused the explosion."

Re-elected President.

New York, Oct. 16.—Robert C. Clowery was re-elected president of the Western Union Telegraph Company this afternoon at the annual meeting of the board of directors when his policies in connection with the telegraphers were endorsed.

The Security Oil Company.

New York, Oct. 16.—The Security Oil Company of Texas is owned by a group of benevolently inclined capitalists who have never questioned the fact that the company, which has a capital of $4,000,000, has never declared a dividend according to the testimony of Howard Bayne, assistant secretary of the concern, who was on the stand today in the government suit to dissolve the Standard Oil Company.

Mr. Kellogg, government counsel, charges that the security is controlled by the Standard and was organized after the Waters-Pierce was driven out of Texas to represent the interests of the trust of that State. All the stock of the security, except three shares, is held by the London Commercial Trading Investment Company, limited. "The Englishmen must be easy, aren't they?" said Kellogg.

"Well, you see we have made some bad investments and they understand, I suppose, why we have not made much money," said Bayne.

Kellogg was blocked in his effort to prove that the Standard Company controls the Security by the fact that the London company is out of his reach.

The hearing will be adjourned Friday for four weeks.

Cholera Spreading

Vienna, Oct. 16.—Cholera has become so serious in the southwestern Russian provinces that great alarm is beginning to be felt lest it makes its appearance on this side of the border. The Russian authorities' indifferences to preventive measures is blamed for the progress the disease has made. The violence with which the epidemic has broken out at Keiff wilhin the past few days has accentuated the Austrio-Hungarian officials' fears. The number of new cases in the one city is said to amount to more than 100 daily. The disease is of a particular virulent type, fully one-third of the victims dying.

New York Stock Market.

New York, Oct. 16.—The stock market during the first hour was decidedly strong. The principal influence was the higher range of prices from London. The volume of business was somewhat larger and the market showed a tendency to broaden a few of the tradings. It was said that liquidation which was in evidence yesterday had practically ceased and that the market in general was being better supported. Near the end of the first hour the market reacted slightly, but the recessions in most cases were rather light. After the first hour the market quieted down considerably and prices for many of the leading issues reacted rather sharply.

SECRETARY TAFT IN MANILA.

War Secretary Taft arrived at Manila yesterday from Hongkong and received an enthusiastic welcome.

There was an informal reception and concert at the governor's residence last night.

Mr. Taft made the highest impression in responding to the addresses of welcome.

Much discussion has been caused in Manila by the fact that no liquors will be served at the functions in Mr. Taft's honor to be held at the palace, which step is said to have been taken at the direction of the secretary.

It is learned that the German ministry of war will pay special attention to Secretary of War Taft when he arrives in Berlin on his return from the Philippines. He, among other honors, will be attached to the staff of the official inspector of the chief military institutions. The minister of war will give a dinner in his honor.

The wife of Samuel Small, deposed head of the Commercial Telegraphers Union, is at the point of death at their apartments in Chicago. Small refuses to recognize his suspension as President of the union.

The Philadelpha North American has recently shown that enterprise in news gathering is a paying investment. When it was announced that Secretary of War Taft was to make a trip around the world The North American at once realized that this journey must be of the greatest international import, and might mean the readjustment of national friendships and the smoothing over of international differences.

Of all the newspapers in the United States, The North American sent a special correspondent along with the secretary, and with the correspondent a special photographer.

The importance of the news that The North American has received from Japan since Secretary Taft's arrival at Tokio has shown that The North American's correspondent has been wide awake, and has not allowed important facts to remain untold.

The special correspondent selected for this work is Robert H. Murray. The photographer who accompanies Mr. Murray is Robert Lee Dunn.

In addition to cabled articles, Messrs. Murray and Dunn will furnish by mail a series of illustrated special articles that will tell in clearer fashion the meaning of the Taft around-the-world tour.

COCHRAN-MARSHALL WEDDING

One of the prettiest social events of the season took place at St. Paul's Church this afternoon at 2 o'clock when Miss Rebecca Courtney Marshall, one of Alexandria's most popular members of society, was married to Dr. Thomas B. Cochran, a prominent young dentist, the ceremony being performed by the rector, Rev. P. P. Phillips. The bride entered the church on the arm of her father, Dr. Jacquelin Ambler Marshall, and to the strains of Mendelssohn's Wedding March, played by Mr. Sherman B. Fowler, and preceded by the bridal party, proceeded to the chancel rail where they were met by the groom and his best man, when the beautiful service of the Episcopal Church in making them man and wife was performed. After the ceremony a reception was held at the residence of the bride's parents, on Duke street, which was attended by the bridal party and immediate relatives of the bride and groom. The bride wore a gown of white satin over taffeta and a white hat trimmed with yellow. She carried a shower bouquet of white roses and lilies of the valley. The maid of honor, Miss Agnes L. Marshall, sister of the bride, was gowned in yellow mousseline over white taffeta and wore a white hat trimmed with yellow, and carried yellow roses caught with white silk. The bridesmaids, Misses Edmonia Tyler, of Haymarket; Estelle Habel, of The Plains; Virginia Carter, of Washington; Lou Washington, Mary Phillips and Ellen Fawcett, of this city, wore dresses of white mousseline over white taffeta, with white hats trimmed with yellow roses. They carried yellow chrysanthemums. The best man, Mr. R. H. C. Beverly, and the ushers, Messrs. Lewis H. Machen, R. M. Chichester, Edmund Hunter, Arthur Herbert, jr., Edward Marshall, of Charlotte, N. C., and Dr. Wm. M. Smith, wore the conventional afternoon dress. After the reception Dr. and Mrs. Cochran, accompanied by the bridal party, left on the parlor car "Mount Vernon" for Washington and later left that city for an extended tour through the north. Upon their return they will make their home on Duke street.

Miss Cora Cochran, sister of the groom, last night entertained the bridal party and a few intimate friends at her home on King street.

OFFER DECLINED.

A few days ago a gentleman conducting a hardware establishment in this city received a cargo of nails, and, it is said, had some difficulty in procuring laborers to remove them from the car to his store. Yesterday a citizen, who had heard of the trouble experienced by the dealer, saw a number of idle colored men sunning themselves on the river front, and, in order to ascertain how many of the group really desired work, approached them and stated that another carload of nails had reached the city and that the owner desired to have them removed from the car to his store as soon as possible. The men were told they would receive twenty cents an hour for their services. The spokesman for the crowd suggested that nails were heavy and it required strength to handle the same. The man who pretended he was seeking laborers suggested that the kegs could be rolled on skids from the car to the street and in like manner could be placed in wagons and removed from the same. The chief speaker for the darkeys, after a pause, told the man that he and his companions belonged to the pallbearers' union and, expecting a job in a short time, it would not be convenient for them to accept his offer.

A WARNING.

Among the cases before the Police Court this morning was that of Joseph Heyman, who was charged with using abusive and threatening language toward Marshall Cheshire. The trouble was the outcome of a case in the court yesterday when Heyman was fined $10 for cruel treatment of a horse. Cheshire was the material witness, and the difficulty occurred in Market alley after the case had been disposed of. Justice Caton dismissed the charge against Heyman, but in doing so said that witnesses in the Police Court would be protected, and that in future when such should be insulted or threatened the parties guilty of such conduct would be arrested and fined for contempt of court.

FIRE.

About four o'clock yesterday evening the roof of the kitchen of the residence of Mr. Ernest Evans, on the north side of Wilkes street, between Fairfax and Lee, was found to be burning. Mr. F. L. Entwisle, living in the neighborhood, entered the house with an extinguisher and succeeded in arresting the progress of the fire until the arrival of the department, which soon subdued the flames. Mr. Evans was painfully burned in attempting to extinguished the fire, and the roof of the kitchen and some of the interior work and furniture were damaged. The fire was started by the pipe of a stove.

A BEAUTIFUL DISPLAY.

Winter's rapid approach was more than ever evident at the exhibition of beautiful imported and domestic gowns, wraps and blouses displayed at Woodward & Lothrop's, in Washington, yesterday. The show rooms, which were artisically decorated with great clusters of pink and white cosmos, pots of ferns, and branches of autumn leaves, were thronged with women making preparations for the social season about to open, by purchases of wearing apparel. The display was one of unusual beauty, and the models shown surpass anything of the kind ever seen in this section of the country. An air of charming informality prevailed. Every one seemed happy and companionable. A striking feature of the exhibition was that, while each garment was in the very latest fashion, either in color, design, or texture, no two were alike. Alexandrians mingled with the crowds which inspected the superb display.

CONCERT.

The Old Folks' Concert at the Opera House last night, given for the benefit of Grace Church paving fund, was rendered with success to a crowded house. It reflected great credit on the director, Mr. W. H. Starnell, formerly of this city and now of Washington. The soloists all rendered their parts as artists in their class, especially the high soprano of Tuneful Anderson and the deep basso of Dr. Killem Quick in "Rocked in the Cradle of the Deep." Melchizadek Van Doren was at his best when "For All Eternity" was given. It would be impossible to mention each one in order to do them justice, but it can be said that all the company gave their quota to make the concert an artistic success. Prudence Lovegood evoked a round of applause when she appeared before the people of her own town, and maintained the appreciation of the audience in "Cousin Jedediah." The courting song by "Aunt Rachel" and "Deacon Grinders" made a great hit. The management of the concert takes occasion here to thank the Washington company for their talent and the audience for their generous patronage.

SCARED OFF WITH TOY PISTOL

Several nights ago a young married lady, living at the extreme southern end of Lee street, was on her way home with her infant child in her arms. When she reached the intersection of Franklin and Lee streets a colored man placed himself in front of her and asked her to tell him the time. The lady attempted to pass the darkey, but he blocked her way. Her child had been playing with a toy pistol, which the lady took from the little one, and pointed it at the darkey. The latter immediately sank on his knees and piteously begged the lady not to shoot him, and, watching his opportunity, he took to his heels and soon disappeared.

PROPERTY SALES.

The following sales have been recently made by the firm of M. B. Harlow & Co.: Lots, in Cottage Park, to J. B. McDonald, John Massey, and Lambert Sullivan. Improvements are now being erected on these lots. A frame house and lot, 1419 Prince street, to Mrs. C. Lyles; a brick house and lot, 204 north Washington, to a party from West Virginia; two lots on north Patrick street near Montgomery, to Rev. R. B. Robinson; a lot on north Patrick street, near Montgomery, to Silas P. Drew, of Washington; a lot on north Patrick street, near Montgomery, to Amanda Rector, of Warrenton.

KNOCKED DOWN BY A WAGON.

The three-year son of Mrs. Laura and the late Albert Schoeni had a narrow escape from being killed by a wagon on Fairfax street, between Wilkes and Gibbon, this morning. The child started toward the opposite side of the street, and in doing so walked in front of the vehicle. The colored boy who was driving the horse, seeing the child's danger, turned the animal as soon as possible, but the little one was struck by one of the legs of the horse and knocked down and the wheels of the wagon passed within a few inches of the prostrate child. The latter fortunately was not seriously injured.

COMMITTEE MEETING.

A joint committee on public property, general laws and finance of the City Council met last night to consider proposals for the lease or purchase of the city's property on the river front north of the old canal basin. Mr. Milton Fairfax and Mr. Arthur Bryant appeared as possible purchasers, each wanting to utilize a part of the property for manufacturing purposes. The meeting was a very amicable one and after hearing the propositions from both gentlemen the committee adjourned without taking definite action to further consider the matter at a subsequent meeting.

POLICE COURT.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Joseph Heyman, charged with using threatening language toward Marshall Cheshire, was dismissed.

James Griffin, jr., charged with being drunk in the street, was sent to jail for ten days.

A white boy, charged with breaking a glass in a street lamp, was made to pay for the same.

STRUCK BY A BLIND.

While Messrs. J. F. Birrell and Wm. Rudd were engaged in painting at Mr. M. Rosenfeld's dry goods store, on King street, between Pitt and St. Asaph, this afternoon a blind which was being removed by Mr. Rudd parted and fell striking Mr. Birrell on the head and injuring his temple and nose. Mr. Birrell was conducted to Mr. E. Warfield's drug store, where he received attention. His injuries, though painful, are not serious.

DANCE NEXT MONDAY NIGHT.

The Fanchon Pleasure Club have made all arrangements for their opening dance at McBurney's Hall next Monday night, and those attending are assured a pleasant evening, as nothing has been left undone to make this one of the most delightful affairs of the season. The committee having the dance in charge are Edward Ticer, Jerome Kaufmann, Harry Dachslager, and Herbert Barron

MISSING BOY.

Mrs. Clark, mother of a youth named Richard Clark, living in the extreme northwestern section of the city, notified Officer Talbot this morning that since last Monday night she has been ignorant of her son's whereabouts. He left home at that time for the Old Dominion Glass Works, where he had been employed. The boy suddenly disappeared some time ago and caused his parents considerable anxiety.

RELIANCE FIRE COMPANY.

There was a well-attended meeting of the Reliance Fire Company last night. Most of the business transacted was of a routine nature. The company accepted, with thanks, the $75 appropriated by the City Council to aid in defraying the expenses of the members in attending the State Firemen's Convention in Newport News last August.

[Editorial in Hartford, Conn., Daily Courant]

Collector P. Davis Oakley has voluntarily withdrawn the personal bond of $25,000, given for the proper performance of his duties, and has substituted the bond of a fidelity company for the same amount. This commendable action deserves a passing comment. Mr. Oakley found no difficulty whatever in getting bondsmen, but, whoever his bondsmen might be, there could be no denying that they had put the collector under a direct personal obligation to them. It is far more independent and self respecting, to go down into your own pocket for the premium and pay a corporation, chartered for the purpose, for giving its bond for you. This cost him some money, but with that he buys complete personal independence and sets an example that should be widely followed. It is the way to do business; and it is no reflection upon willing friends to go instead to a company. On the contrary, it is doing them a favor.

This bond was written by the

COL. SLEMP'S SEAT.

Henry C. Stuart, member of the Corporation Commission, says he will not be a candidate for Congress to succeed Campbell Slemp, who died Sunday. Mr. Stuart sometime ago announced his candidacy for governor, saying at the same time that he would not in any way begin his campaign till he had concluded his term as a member of the commission. He said the same thing yesterday, and will stand by that declaration.

He would not in the least object to going to Congress, but there is every reason to believe that he will not have the time to make a campaign, for the Governor will, in all probability, order an extra election at an early date for the filling of the vacancy. He has not yet been officially informed of the death, and it is possible that an election may be held prior to the convening of Congress, in December.

The democrats are hopeful of carrying the district, now that the State boss is dead, and there is another good reason to be found for this belief in the fact that there are several republicans who have been priming themselves for a "go" at Colonel Slemp.

L. P. Summers, Collector of Internal Revenue for the Western district of Virginia, is reported as elated to succeed Congressman Slemp. Buscomb Slemp, son of the late Congressman, and John Noel are also mentioned as republican aspirants for this office.

MISS MALONEY'S FLIGHT.

Members of the family of Miss Helen Maloney, who eloped with Samuel Clarkson, an Englishman, say that when she left the parental roof she took $70,000 in jewelry and negotiable paper with her.

It is stated in London that Samuel Clarkson figured in 1905 in a case in which he sued Drucker & Morris, stock brokers, in connection with stock exchange transactions that had resulted in a loss of $165,000.

W. M. Armstrong, of Pittsburg, a Princeton graduate and close college companion of Arthur Herbert Osborn, of New York, said yesterday in Munkogee, Ind., that Osborn and Miss Helen Eugene Maloney, daughter of Martin Maloney, were married December 28, 1906, in a notary's office at Mamaroneck, N. Y., going there from Miss Maloney's home, at Spring Lake, N. J. Armstrong says that he obtained the license and that Osborne gave his name as Herbert Osborn, while Miss Maloney gave her name as Helen Eugene. They gave their home as Pittsburg. The pair kept the marriage a secret, Armstrong says, on account of their differences of religion and the probable opposition of Miss Maloney's parents to a marriage not consecrated in the Roman church.

BALLOON TRAVELS THIRTY MILES AN HOUR.

After traveling through the air a distance of almost 100 miles in three hours and ten minutes, J. C. McCoy and Capt. C. de F. Chandler brought the balloon Psyche down to earth three miles north of Jacksonville, Ill., late yesterday afternoon, ending the first trial trip taken by the aeronauts, who are to contest in the international races, to be held in St. Louis October 21.

The route of the balloon was almost directly north of St. Louis, and Mr. McCoy, who is to pilot the America in the coming races, expressed himself as well pleased with the performance of the Psyche and with the prospects of a long trip in the America, which is more than twice the size of the balloon used yesterday.

Toward the end of the journey yesterday the balloon passed through a rainstorm for almost an hour, but a few minutes in the sunshine dried the envelope, and the Psyche afterward rose to a height of a mile. The landing was made in a cornfield and no damage was done to the balloon.

The ills peculiar to women, take different forms.

Some ladies suffer, every month, from dark rings round their eyes, blotches on their skin and tired feeling. Others suffer agonies of pain, that words can hardly express.

Whatever the symptoms, remember there is one medicine that will go beyond mere symptoms, and act on the cause of their troubles, the weakened womanly organs.

Wine of Cardui

Mrs. M. C. Austin, of Memphis, Tenn., writes: "For five (5) years I suffered with every symptom of female disease, but after using the well-known Cardui Home Treatment, I was entirely well."

To Users of Power

Do you know, Mr. Power User, that we can operate your plant cheaper by electricity than you possibly can by steam or other methods? Write or telephone us, and we will call and explain why. Here are the names of some of the manufacturers who are using our power:

The Risheill Lumber Co	25	Horse Power.
F. J. Pollard, Flour Mill	25	" "
Lawrence Mill Co	50	" "
The Old Dominion Glass Co	35	" "
The Emerson Steam Pump Co	25	" "

In addition to this we have about thirty customers who are using smaller motors.
